#### **Quotes:**

**Björn Kircheisen (GER):** "I hoped to keep the yellow bib over Christmas so I am very happy that I could hold on to it. That I could win again today is even better. It was a wonderful weekend for me. I could once again show a good jump in the competition and had a good starting position for the race. I tried to save some energy for the end of the race. At the last uphill I attacked and used this saved energy. With this lead I could manage to get into the finish before all the others. I will now use the time to fully recover from my sickness and to train well for the next competitions. Of course I am looking really forward to the competitions in Germany and I hope that we will have many spectators again!"

**Ronny Ackermann (GER):** "I had a really good jump today, so I am happy that I seem to be able to get more and more jumps on the same high level in a competition. I had hoped to be on the podium so it is great that I could manage that. I am not so upset that I don't have the

yellow bib anymore. The lead of the overall World Cup was not my goal this season therefore I am not depressed. My goal was and still is to be constantly under the top 10 and I am working and keep focusing on that. Now it is nice to have some time off to relax and train before the next competitions. I hope we will have a great crowd again in Oberhof!"

**Tino Edlmann (GER):** "I still don't know what to say. I had such a terrible competition yesterday that I didn't think about any goal today. Maybe that was the reason why it went to great for me today. I was already quite surprised after the jumping but I still didn't bother thinking about any goal. I just raced my race and tried to keep some power for the end. And suddenly I was third. It is unbelievable. Of course I have dreamed about it many times and it could have happened already some times before but it never did. So I am very happy now that I could finally manage to get to the podium! It's a wonderful Christmas present!"
