#### **Quotes:**

**Jason Lamy Chappuis (FRA):** "It was a huge relieve to be on the podium again and an even bigger one to on the top! I had a tough start into the season and when I finished 23<sup>rd</sup> in Oberhof a couple of days ago; it was not a good finish of the year for me. I was really frustrated. I had worked hard on my jumping after Ramsau. I had realized that it was not as good as it had been last year so my focus was on that. After jumping, which finally worked well again, I speculated with the podium. But I knew that Magnus and Bill will come and so I tried to keep some power for the end during the first two rounds. I attacked at the last hill. Pretty close to the stadium. I knew it was my last chance and I took. I am really happy!"

**Bill Demong (USA):** "I am very satisfied. It is still a bit new to me to be that constant on the podium. My competition jump was the best jump I had on that hill and I started as 12<sup>th</sup> into the race, which was pretty good. When Magnus and I talked before the race and he asked for what we should go for, I said "for the victory of course!" and so we did. Jason was better in the end, but I am still very happy. I tried to catch Magnus in the end which was pretty

tough because he was racing very hard. From then on we worked together again and made it to the front. It was very tight in the end again, but I think that makes such races so interesting also for the spectators! It is incredible what the organizers did today in such a bad weather. The inrun track was so well prepared that you didn't even notice a difference to yesterday! Today's race was pretty hard, but I am already looking forward to tomorrow. The traditional Schwarzwaldpokal is of course something special."

**Magnus Moan (NOR):** "It was a tough and tight race again and I am very satisfied with my performance. I believed once again in my jumping technique, of which I am sure that it works very well. The competition jump was then quite good and I could start into the race as 10<sup>th</sup>. This weather is my weather and I felt good from the start on. I knew that I had some strong competitors to beat and in the end Bill and Jason were stronger. However, it was a very good cross country skiing race again and especially Bill earned it to be second and in front of me today. Although I don't really like the hill here I am looking forward to tomorrow already and hope that we have again such a great crowd as today!"
